

Memo No. / VCWSWA/8028/2025

Date / 27.05.2025

**Office of the Principal, Govt. College for Women, Shahzadpur (Ambala)**

**Report**

**on**

**Students opting for Entrepreneurship or Placements or Higher Education**

Govt. College for Women, Shahzadpur (Ambala) is effectively operating and empowering the local girl students since its establishment in 2018. Designed with a vision to develop skills, professional ethics and team spirit, college is equipped with various facilities such as library, computer labs, science labs, auditorium etc. Beyond its infrastructural facilities to its student, it also operates functional cells such as placement cell, entrepreneurship cell, counselling cell and many more. College authorities are constantly committed to continuously enhance the infrastructure as well as the intellectual capabilities of this college so that maximum benefit can be provided to the girl students.

In response to the email received on May 12, 2025, requesting data on campus placements and students pursuing entrepreneurship, an initiative was undertaken under the guidance of Principal Prof. (Dr.) Umesh Bharti. A Google Form was designed and disseminated among alumni and current students, spanning the last three academic sessions, to gather insights into their post-graduation choices. A total of 158 students participated within the specified timeframe, providing valuable information about their career preferences. The compiled data has been systematically analyzed and is presented in the form of a pie chart below, offering a clear visual representation of the trends observed.

what is your choice after graduation  
158 responses

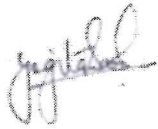

Source: Data collected through google form from students of session 2022-23, 2023-24 and 2024-25

Principal  
Govt. College For Women  
Shahzadpur (Ambala)  
27/5/25

The data presented in the chart reveals a clear trend among students regarding their post-graduation aspirations. Higher education emerges as the top priority, with approximately 46.8% of students choosing to pursue further studies. Interestingly, a comparable percentage—46.2%—has opted to enter the workforce through placements or job opportunities, demonstrating a balanced inclination between academic advancement and immediate employment.

It can also be inferred from the information collected via google form that least preferred choice is entrepreneurship among the girl student of Govt. College for women, shahzadpur ( Ambala). Only 1.3 % of girl students opted for business/entrepreneurship. The above collected information provides an insight regarding student preferences and a possible scope for building awareness or interest among the students regarding different fields after graduation.
